

Health, Safety and Environment Policy Statement

Pars Virashid recognizes the importance of meeting society's needs, to protect the health of the general public and employees, to provide a safe work place for employees and contractors, and to protect the environment, all along the course of the Iran oil, gas, petrochemical, and power plant fields development. These operations require a high degree of awareness among all members of the company and its contractors. Pars Virashid is consequently fully committed to this HSE policy and standards which have been developed to achieve the objectives, set forth. These objectives which Pars Virashid considers of greatest importance are:

- Consideration of Health and Safety at work and respect for the Environment as important as the economic performance of awarded contracts.
- Prevention of exposure to risk in all areas of its endeavours on the belief that any accident can be prevented through continuous evaluation and improvement.
- Adoption of an attitude of openness and constructive dialogue with public authorities and local communities to protect the Environment and to safeguard the Health, Safety and Quality of life of those living or working in the vicinity of our operating facilities.
- Determination to make permanent progress in the field of Health, Safety and Environment through training programs, consultation and implementation of internal and external audits.
- Application of appropriate measures to minimise any adverse effects of its operations on the Environment.

I am committed to improving the integrity of our operations and especially improving our safety performance in accordance with the Pars Virashid Health, Safety and Environment Charter, through adherence to the 10 basic HSE rules of the DGEP HSE policy.

Mohsen Delavari, Managing Director
